Director of Buildings Inspection
Newark City Hall
Newark, N.J.,

Dear Sir:

We, owners and tenants of properties surrounding the former PRU Apartments 44 to 64 Fleming Ave., Newark, New Jersey.

Request from you the issue of inspection procedures in the premises above mentioned to verify the violations and safety hazards on said properties in order to have them corrected by the owners.

We would appreciate your interest in the matter as soon as possible due to the existence already of big holes on the sidewalk due to the removal of the metal plates that cover the entrance to the basements, leaving very deep and wide holes where it would be easy to any person walking on the sidewalk fall through them.

Thank you very much for your special attention.

[illegible]
